

PREPARATION OF STATEMENT OF WORK
OR SPECIFICATION

If the Subcontractor under this subcontract prepares a complete or essentially complete statement of work (SOW) or specifications to be used in competitive acquisitions, the Subcontractor shall be ineligible to perform or participate in any capacity in any competitive contractual effort based on such SOW or specifications except for providing advice or assistance on these competitive acquisitions directly to Fermilab. This bar shall not be construed to prevent the Subcontractor from participating in any noncompetitive acquisition involving the SOW or specification.
