Site access and badging roles

Role	Description
User	<p>Individual who accesses Fermilab facilities and resources for the purpose of advancing the scientific mission of the Laboratory and whose work generally requires unescorted and/or after-hours access to non-public access areas (DOE-Approved User Facility and/or non-User Facility resources).</p> <p>Users require safety training to perform work, and a Fermilab ID badge and/or access to Fermilab networks or systems. Users can receive payments or reimbursements from Fermilab, which include individuals participating in reviews or committee meetings.</p>
Sub-Contractor	<p>Individual who accesses Fermilab facilities and resources working via a Procurement-managed subcontract with FRA. Subcontractors require subcontractor training to perform work, and a Fermilab ID badge. Subcontractors include individuals who consults on behalf of the Laboratory.</p>
Authorized Guest	<p>Individual who does not have business with the laboratory but is approved to access select Fermilab facilities, such as the Fermilab Children's Center, Fermilab Village Housing, or Recreation Center.</p>
Fermilab Point of Contact (POC)	<p>FRA employee, user or sub-contractor responsible for confirming an individual's affiliation with Fermilab and home institution.</p>

Site access and badging roles continued

Role	Description
Users Office	FRA team responsible for onboarding Users.
Badging Office	FRA team responsible for onboarding Sub-Contractors, Authorized Guests, and providing badges to all workforce.
Foreign Visit Assignment (FVA)	FRA team reviewing access request for non-US citizens.
Export Control (EC)	FRA team reviewing export controls for non-US citizens.
Agreements Manager	FRA team ensuring an agreement is in place for a home institution.
Institution Manager	FRA team managing details of Home Institution list.
Contingent Coordinator	FRA employee in lab organization responsible for validating sub-contractor information is accurate. Handles exceptions for contingent workers in ServiceNow (SNOW).
Affiliation Approver/Computing Validator	FRA-approved individual (e.g., Spokesperson, Division/Section Head, etc.) who is accountable for verifying the identity and information of an individual requesting access (physical and/or remote) prior to approving Fermilab access. Approvers are required to develop and follow their experiment, project, or division/section approver verification process.
Contract Approver	FRA employee in lab organization responsible for approving the Sub-Contractor.
Security Communication Center	Fermilab team responsible for providing access to buildings and locations.

Terminology

- Access Request – form required for a person that is not an employee to gain access to Fermilab resources
- Affiliation – Fermilab organization, experiment, collaboration, or project that accepts contingent workers.
- No PO Affiliation – This is an external lab association added to the affiliations database that has been created specifically for those sub-contractors that don't necessarily have a purchase order. Examples are Fermilab Natural Areas, AbriCU, and others
- Sub-Contractor Supervisory organization – FermiWorks supervisory organization structure for sub-contractors

Overall Process

Questions and Answers from Training Session

Q: What if there are technical capability issues with contracted employees? Meaning they don't have email or computer to complete the Access Request Form or Workday portion.

A: The sub-contractor company needs to assist their staff in completing the forms and help provide an email.

Q: Site Services is currently filling out the Access Request Form. Should we continue to do this or is up to the vendor to help their employees?

A: It is up to the vendor to help their staff; however, you can offer to assist as they fill out the form.

Q: What if the contingent coordinator is on vacation? Can you reassign your tasks to another contingent coordinator?

A: Yes, if the backup is identified as a Contingent Coordinator in FermiWorks for that sub-contractor supervisory organization, then in ServiceNow you either re-assign the task to the backup or they will be on the watch list of the task and can view the task in my watched tasks.

Questions and Answers from Training Session

Q: If there is more than one Contingent Coordinator for organization and all receive the notification, is there still need to delegate to them?

A: Not necessarily, that will depend on your division/section process.

Q: Does this list check if a PO is going to expire?

A: We only check that the PO is active. You should provide the sub-contractor with dates they can enter based on the PO.

Q: Who owns the process after the contingent coordinator approves? Meaning what is the next step in the process?

A: Contract Approvers

Q: Do contingent coordinators get an email if there is a pending task? Also, if there's more than one Contingent Coordinator for an organization, in what order are tasks assigned to coordinators?

A: Yes, you will get an email. If there is more than one person, the task gets assigned to the first on the list and the rest of the people are added to the watchlist and are copied on the email.

Q: Is this replacing guest/visitor process?

A: Yes.

Questions and Answers from Training Session

Q: What if the contingent coordinator is out of the office?

A: You can reassign your tasks to another contingent coordinator, or a contingent coordinator in your group can look at and work your tasks while you're gone. You should designate a backup to cover for you if you are not available.

Q: Does this system integrate with the essential personnel list to allow people onsite?

A: No. Anyone coming onsite should follow the current process to request access. This process does not add them to the list.

Q: Do contingent coordinators get an email if there is a pending task?

A: Yes, you will get an email and a weekly reminder if you have a pending task.

Q: Is the PO list on the access request form updated in real time?

A: Yes, it is updated from EBS so it should be accurate and up to date.

Q: How can a contingent coordinator check a PO?

A: You can go to the PO Lookup or Web Query on finance site to look at requisitions and PO numbers

Q: How far in advance should we have the contractor complete this form?

At least a few days but it could take up to 4 weeks to process a non-US citizen. There needs to be time for the request to get through the different approvers and time for the contractor to add their information into FermiWorks.
